The NEW MEXICAN is the oldest newspaper in New Mexico. It is sent to every Postoffice in the Territory and has a large and growing circulation among the intelligent and progressive people of the southwest.

ADVERTISING RATES.

Wanted—One cent a word each insertion. Local—Ten cents per line each insertion. Reading Local—Preferred position—Twenty-five cents per line each insertion. Displayed—Two dollars an inch, single column, per month in Daily. One dollar an inch, single column, in either English or Spanish Weekly. Additional prices and particulars given on receipt of copy of matter to be inserted.

MONDAY, MAY 9.

The people of this territory are justly proud of the fine body of volunteers sent to represent them in the volunteer army of the country.

The speedy, prompt and successful organization of New Mexico's quota of 340 men within five days, all picked men, reflects credit on Governor Otero.

The NEW MEXICAN has done great work toward the speedy and prompt organization of the New Mexico volunteer battalion. Facts are facts and like truth, crushed to earth, will rise again and must be acknowledged as such.

SINCE the destruction of the Spanish fleet at Manila, European papers have ceased talking about "American amateur warmaking," and are wondering if "there is any end to Yankee daredevilry on the seas?" Perhaps the foreign editors have been reading up on Paul Jones.

The western hemisphere must be emancipated from all European control and domain and its destinies must be controlled by Americans. This is destiny and the liberation of Cuba from Spanish yoke is but another link in the chain of circumstances that is bringing such a result about.

EXCELLENT service as U. S. muster-ing officer was done by Captain Charles L. Cooper, 10th U. S. cavalry, who performed the responsible duty of the examination and enlistment of New Mexico's volunteers. A better qualified or more competent officer for that duty could not have been chosen.

The Raton Gazette is a new weekly paper that has made its appearance in Raton. The paper looks well, is newsy and will advocate Democratic principles. Three Democratic newspapers ought to make Colfax county somewhat Democratic. It is inclined that way anyway. The Republicans need a couple of good, live, active papers in that county, that is sure.

SPAIN is threatened with revolution. The people of that country will attempt the foolish task of swapping horses, while crossing a very rapid and turbulent stream. But it matters little to this country whether the armies and navies of Spain are walloped under the queen regent or under Charles the VII. It amounts to the same thing in the long run.

In talking about the great victory achieved by the American squadron in Manila harbor, the men behind the guns should not be forgotten. They did the shooting and made every shot tell to good purpose for the honor and dignity of this country, to avenge the Maine and about the establishment of Cuba Libre. Don't forget the men behind the guns.

DURING the absence of Captain Frederick Muller, commanding troop A, 1st U. S. volunteer cavalry in the field, his duties of collector of taxes of Santa Fe county will be performed by Major R. J. Palen, president of the First National bank in this city. This arrangement suits in every respect and could not be improved upon.

A PLAYED OUT FOG, who calls himself Charles the VII of Spain, wants to rule Spain instead of the queen regent, Maria Christina and 12-year old Alfonso the XIII. It is immaterial to this country what kind of a fool rules over Spain as long as that country keeps away from interfering with the aims and objects of the United States. But no matter, who sits on the tottering and slimy throne of Spain, Porto Rico and Cuba must be taken from Spanish authority and that before this war is over.

A WEEKLY Republican paper, El Republicano, has made its appearance in Socorro under the editorship of William E. Martin, who is well known throughout the territory. It is backed by a company, of which Sheriff H. O. Bursum and County Treasurer Abran Abeytia are members. It is small in size, but starts out well in editorial and news matter. Mr. Martin is a fine Spanish scholar and a vigorous writer. Success to the paper and to the Republican party in Socorro.

WITHIN ten days the subscription, inaugurated by the NEW MEXICAN, for a fund to purchase a flag for the New Mexico volunteer battalion, that left for San Antonio, Tex., on last Saturday evening, amounted to \$990. This is complimentary alike to the patriotic and liberty loving people of the territory and the influence of the NEW MEXICAN. Arrangements for the purchase of the

flag are now being perfected and it will arrive here soon to be inspected before being sent to San Antonio for ceremonial presentation to the battalion through the proper military officers.

New Mexico Volunteers.

Saturday evening 356 men from New Mexico started to the front in the war with Spain, and going as they do with a regiment of rough riders and ready fighters, they will probably be among the first troops to land in Cuba.

The greater number of the men were in Santa Fe a week, and in that time their behavior was such as to impress every one with their earnestness and quiet determination to do whatever duty points out. During the time they were in this city not a single disturbance occurred either on the streets or in quarters, and aside from the bustle and stir of preparation and organization, no one would have known anything unusual was going on. A more courteous company of men never gathered in one place from all parts of the territory, and the citizens of Santa Fe were sincerely sorry to see them leave.

But they have gone, and that upon a journey filled with peril from battle and disease, but no matter in what straits the boys may be placed, New Mexico will never need be ashamed of the actions of New Mexico's battalion of the First regiment United States volunteer cavalry. Their conduct in this city is a guarantee for their bravery in battle, honorable conduct in city and camp, and their tender care of the innocent and helpless.

The NEW MEXICAN sincerely trusts that the war will be of such short duration that they may never be called into battle, but knows that should it be necessary to fight the New Mexico volunteers will give an account of themselves which will make the world ring with their praise. It is truly an honor to march in the ranks of such men.

The New Mexican's Creditable Work.

The NEW MEXICAN feels that it has every reason to be proud of its work during the enlisting and mustering of New Mexico's quota of the 1st regiment United States volunteer cavalry. From the day of President McKinley's call for 125,000 volunteers to take part in the war with Spain, until the last section of the train for San Antonio left the depot in this city, this journal never missed an opportunity to urge upon the people to send volunteers and to aid the governor of the territory to furnish New Mexico's quota at once. When the volunteers began to arrive in Santa Fe from different parts of the territory, their names were secured and carefully published, and on Saturday, when the four troops A, B, C and D had been filled and mustered the name of every commissioned officer, with a short biographical sketch, was given, and the names of the men in the ranks were printed in full.

As a record of the enlistment of the New Mexico volunteers, the daily issues of the NEW MEXICAN, beginning with Saturday, April 30, the day the first recruits arrived, up to and including Saturday, May 7, are invaluable, and last Saturday's paper should be filed away for reference when news begins to come from the front. The completeness of that issue, as to names and organization, is such that every one of the 356 men from this territory, belonging to the regiment can be kept track of.

Nor is that all. No other paper in the territory added so much in hastening the organization and departure of the battalion as did the NEW MEXICAN. All party, personal and sectional feeling, if there was any, was laid aside, and everything that could be done in that direction was gladly and freely done, and while the expense was considerable, should occasion arise, the same work will be done again. Of all these things the NEW MEXICAN is proud, for the reason that they add to the reputation of excellence it has borne in the past. In order to continue the work of keeping the people of New Mexico informed regarding the conduct and duties of "our boys," arrangements have been made whereby the daily routine of camp life, the marches, battles, and incidents of war in which they will participate will be reported and published, thus making a file of this paper a complete history of the New Mexico battalion of the 1st regiment United States volunteer cavalry.

It is safe to say that the NEW MEXICAN will be the only paper in the territory which will be able to furnish news of such absorbing interest, and those desiring to receive it can do so by placing their names on the subscription list of this paper.

A Satisfactory Appointment.

Governor Otero Monday afternoon appointed Hon. Silas Alexander district attorney for Socorro county, to fill the vacancy caused by the resignation of H. M. Dougherty.

The appointment is an excellent one and gives general satisfaction, not alone in Socorro county, but throughout the territory. Mr. Alexander is in every way well qualified to fill the position and very deserving of recognition at the hands of the Republican party.—Silver City Enterprise.

The American Navy, Cuba and Hawaii.

A portfolio, in ten parts, 16 views in each part, of the finest half-tone pictures of the American navy, Cuba and Hawaii, has just been issued by a Chicago publishing house.

The Atchison, Topeka & Santa Fe railway has made arrangements for a special edition for the benefit of its patrons, and a specimen copy can be seen at the local ticket office. Single parts may be had at 10 cents each, the full set, 160 pictures, costs but \$1. Subscriptions for the set may be left with the agent. In view of the present excitement regarding Cuba these pictures are very timely. Call at the ticket office and see them.

Alexander's Appointment.

After considering the matter Judge Hamilton decided that he had no right to appoint a special prosecutor for the district when an actual vacancy existed, and so informed the governor. Monday afternoon a telegram was received

in this city announcing the appointment of Hon. S. Alexander as district attorney for this district, and the gentleman is now vigorously pushing the work of his office. Mr. Alexander has shown himself to be an able prosecutor in the past, and there is every reason to believe that the people will receive all the protection possible from a full enforcement of the law upon all offenders.—Socorro Advertiser.

HOUSE RESOLUTION 8694.

A Bill to Refund the City Debt of Albuquerque—Will Likely Pass.

On April 29 the house committee on territories reported favorably and recommended for passage the following bill, introduced by Del. F. Ferguson on February 28 last:

A bill to enable the city of Albuquerque, N. M., to create a certain indebtedness, and for other purposes. Be it enacted by the Senate and House of Representatives of the United States of America in congress assembled, That the city of Albuquerque, in the county of Bernalillo and territory of New Mexico, is hereby authorized and empowered to issue bonds of the said city in a sum not to exceed \$55,000 in all, in such denominations and at such rate of interest as the municipal government of said city shall provide, notwithstanding the act of congress approved July 30, 1898, entitled "An Act to prohibit the passage of local or special laws in the territories of the United States, to limit territorial indebtedness, and for other purposes." And any and all bonds of the said city issued in pursuance of the terms of this act shall be valid and binding obligations of said city, notwithstanding the same or any part thereof may be in excess of the limit of municipal indebtedness fixed by said act of congress approved July 13, 1896. Provided, that the bonds issued by virtue of this act shall be issued only for the purpose of funding the warrants of said city outstanding on the 1st day of January, 1898. Such bonds shall not be disposed of for less than their par value, and shall not bear a greater rate of interest than 6 per centum per annum. Sec. 2. That this act shall take effect from and after its passage.

A Deserved Compliment.

John S. Clark, territorial coal oil inspector, paid an official visit to this city Sunday. The appointment of Mr. Clark to the position named, was a graceful recognition of a most deserving gentleman, a man of intelligence, ability and eminently trustworthy and reliable, as well as a true and tried Republican, who has given faithful service to his party for years without thought of recompense.—Silver City Enterprise.

Doctors now agree that consumption is curable.

Three things, if taken together, will cure nearly every case in the first stages; the majority of cases more advanced; and a few of those far advanced.

The first is, fresh air; the second, proper food; the third, Scott's Emulsion of cod-liver oil with hypophosphites.

To be cured, you must not lose in weight, and, if thin, you must gain. Nothing equals Scott's Emulsion to keep you in good flesh.

Get it at \$1.00, all druggists.

SCOTT & BOWNE, Chemists, New York.

Travelers.

It affords me pleasure to notify you that a through sleeping car line has been established between Colorado Springs and St. Louis, Rock Island-Wabash, the short line between these points.

Through sleeper will leave Colorado Springs, daily at 2:45 p. m., and arrive at St. Louis the next day at 6:15 p. m. This trip through Missouri, one of the most interesting states in the Union, will be in daylight; the unattractive portion of Kansas will be traversed during the night.

ABOUT SKIRTS.

How They Are Cut, Lined and Trimmed This Season.

Silk, faille or tulle is the preferred lining for skirts, and it may match either the color of the gown or that of the trimming. Sometimes an entirely different color is used for very elegant gowns, but it should be selected with some reference to the shade of the petticoat. Women who can indulge in every luxury have a different petticoat to go with each gown, the petticoat matching the lining, but persons of more moderate means must fall back on generally harmonious colors, so that the various items of their wardrobe may be combined without offending the eye. Linings of black tulle are much worn, especially for skirts which are often worn as black gowns with all colors and does not easily appear soiled.

Among new skirts is one composed of three flanges cut in form—that is, cut in a curve, so that while there are no gathers at the top the flanges are full at the lower edge. This skirt is not, of course, made to trail. The trailing skirts now coming

WALKING COSTUME.

into vogue are plain. Princess gowns have usually a slight train and are very close fitting around the hips.

A novel skirt is made in three enormous plaits, very narrow at the top, where they increase the hips, and growing wide toward the foot, so as to allow an ample flare. Skirts mounted on a tight yoke are also new.

Today's picture shows an attractive and very new walking gown of nickel gray cloth. The sheathlike skirt, which is in one piece, is ornamented around the hips by horizontal rows of stitching. The tight plain bodice is slightly double breasted and terminates at the waist in two crossed points. The small shawl collar is faced with black grosgrain, and the tight sleeves are plain. Two ornamental buttons decorate the bodice, and a cravat of cream mousseline is worn. The hat of fancy straw is trimmed with a drapery of glaze faille and also has large bunches of violets.

JUDIC CHOLLET.

FASHION'S CHANGES.

Present and Coming Modifications of the Wardrobe.

The fashion of very wide and very rigid skirts and immense sleeves held on for a surprisingly long time, considering how extreme it was, but it has collapsed rather suddenly. Now everything is soft, clinging, undulating. Skirts are quite innocent of crinoline and come closer and closer to the figure. They are even cut a little too long at the back and sides, in order to give a sinuous effect. As for sleeves they have gone down like a pricked balloon, and the old fashioned sleeve of the eolskin variety, without drapery or epaulet, is apparently on its way toward rehabilitation. Of course this change of style is favorable to all soft materials, and oriental fabrics are in great demand. Transparent goods are much used over silk linings, but these linings, instead of being confined to certain established rules and being of the same color as the outside except when the outside is white or black, as has been mainly the case up to now, form re-

markable color contrasts and harmonies quite different from previous arrangements. Red gauze appears over white silk, light pink over deep rose, blue over green and all sorts of curious results supervene.

Another fresh decoration is an embroidery composed of tiny ruffles of tulle, tulle or mousseline de sole. Upon satin evening gowns these little ruffles are applied in the form of circles, arabesques and other motifs, suggesting the markings on moire silk.

The picture shows a new model for an evening gown for a young girl. The upper half of the skirt and the entire bodice are of shirred crepe de sole in a rose pink shade. The lower half of the skirt consists of a circular flounce of pink peau de sole.

Around the square décolletage is a sort of collar of gimp trimmed with very small ruffles of black velvet. A cluster of pink roses is worn.

JUDIC CHOLLET.

PROPOSALS FOR SUPPLIES AT ROAD STATIONS, ETC. Office of Chief Quartermaster, Denver, Colo., April 19, 1898. Sealed proposals in triplicate will be received at this office until 11 o'clock a. m., on May 12, 1898, for furnishing fuel, forage and water at road stations in this Department, and for fuel at Logan, Utah; Price, Utah; Fort Collins, Colo., and Silver City, N. M., during the fiscal year commencing July 1, 1898. Instructions to bidders and blank forms of proposals will be furnished on application to this office. The government reserves the right to reject any or all bids. E. B. Atwood, Deputy Q. M. General, Chief Q. M.

194 separate analysis, chiefly carload lots, showed AN AVERAGE of 17.01 per cent sugar in beet; \$4.1 per cent purity.

THIS REMARKABLE RESULT was accomplished by new farmers, unacquainted with the culture of beet root, on new land and under very trying circumstances, as the factory was not assured until May, and a majority of the acreage was planted between JUNE 1st and AUGUST 10th.

GOOD SOIL makes the seed germinate. WATER makes the plant grow. SUNLIGHT puts the sugar in the BEET.

THE ONLY THING left to be desired is that the Pecos Valley has not on hand in abundance is PEOPLE. We need thrifty farmers; 500 heads of families each on a 40-acre farm.

NO FAIRER terms or conditions of sale of beet and fruit lands were ever made.
